HELP WANTED

Persons who make a practice of reading the classified advertisements a the newspapers, are able to get a i insight into business conditions of the more practical kind. This superially true of the "help wanted and the mitmations wanted" sections of the papers. These reflecbesidess conditions in a definit

It is gratifying in team by a per usal of the advertisements appear ing in papers published in the large cities that there is an increase in the number of places for which workers are sought. These offers of employment are of a substantia character, not inducements to en gage in the solling of stocks or merchandise on the house to-house plan. There seems to be an increasing demand for mechanics for individual Jobs, for clerks and other helper in merchandising and other trade ac-

The road to normalcy is not an easy one for either employer or employe to travel, and it is probably as well that it is not, if the oxperience and discipline to be gathered along the way is to be of real benefit in the future. The promise that gradual improvement may be expected should have a heartening effect everywhere. The greater part of 1921 may have been gone before more nearer normal conditions in in dustry and trade can be assured, but the industrial and business life of the nation will be placed on a firmer foundation because of the delay

ANNOUNCEMENT

CALIFORNIA PETROLEUM AND REFINING COMPANY OF COLUSA COUNTY, CALIFORNIA

THE OIL INDUSTRY, this company owns a perpetual lease upon 720 acres, right in the heart of the new oil district in Colusa County California and is now prepared to take subscriptions for treasury stock. The directors of this company a short time ago, authorized the sale of 100,000 shares of the Treasury stock at 25c per share, but since that time the company has practically made arrangements with the California Corporation Commission to sell its stock in that state, and when those arrangements have been completed the company will open an office either in San Francisco or Los Angeles and the price of the stock will

be raised to 50c per share. STATEMENT OF MR. T. J. MEDDOCK

THE CALIFORNIA PETROLEUM AND REFINING COMPANY Gentlemen:

I take pleasure in sending you a brief statement upon your oil holdings of Colusa Co. California.

First of all, you are centrally located in what is almost certain to be in the near future districts of California. Next in

TO THE PUBLIC

After studying the outlines of this wonderful structure in the picture herewith presented and considering its signifigance in the oil world you should not fail to grasp the opportunity now available, visit our office now open, and see samples of oil produced in that district. The highest grade lubricating oil yet discovered, and brings the highest price paid for a crude product, also specimens of the formation, an oil shale with all sorts property. of fossels and shells cemented together. Although the district is quite new there are many drills now at work one of the great oil producing and many more will be working soon.

fine is that most wonderful structure commonly called a "dome" or sign post for geologists. Undoubtedly this dome was forced up by great pres sure, for it seemingly has no connection whatever with a glacier slide, considering the distance it lies from the nearest mountains, which is a low range, and practically only foothills.

The quality of the oil produced in that section is almost without an equal, and according to a cross section map made by the Tuscan Oil Company which is operating in that district, which I have examined thoroughly, and no doubt that company has proven to be correct, by the drillings of their well. I find that the formation and all surface indications are most excellent. After a further and more thorough examination which I will make very soon I will forward to you a full detailed report, and the possibility of your Respectfully
